**RE: Submission for the Agricultural Handlers Exposure Task Force
(EPA Company Number 75234)**

Dear Mr. Housenger:

The Agricultural Handlers Exposure Task Force, L.L.C. is a limited liability company of registrants of agricultural pesticides that have come together to share the cost and effort of developing data to characterize exposure of farm workers to pesticides during the “handling” phases.

The purpose of this submission is to provide EPA with documentation necessary to evaluate the adequacy of AHETF’s overall pesticide handler exposure monitoring program. This submission is comprised of two volumes.

Volume 1 contains the following administrative materials:

- Cover letter
- Transmittal Document that details what is being submitted
- List of AHETF member companies

Volume 2 is a report entitled “AHETF Human Research Monitoring Program”. This is being sent in preparation of an official review by the Human Studies Review Board on June 27-29, 2007.

Mr. Jack Housenger
